Life Sciences – Earth- and Environmental Sciences

Schweizerbart • Borntraeger journals and e-journal packages

Schweizerbart and Borntraeger Science Publishers have been publishing scholarly books, book series and **journals in the earth, environmental and life sciences** since 1826 and 1790,respectively.

Many of our journals track the development of their respective fields of science from their inception.

Publication language: Almost all of our journals publish **exclusively in English**, although their German titles may suggest otherwise. These journals still have German titles because they have been published for very long times, but have adopted publishing in English as early as the 1960s. The titles maintain international standards (peer review, DOI, international topics, authorship, editors and reviewers) and are covered by SCI, Web of Science, Georef, Chemical Abstracts and others (when they became available).

Subscription options: We offer **print with online** or **e-only** subscription to **individual titles** or **four e-packages** with backset (archive with current).

Authentication is by IP-ranges; an EZproxy stanza is available.

Please review our no-nonsense e-license https://www.schweizerbart.de/shop/license.

Our e-journal packages:

* ***Life Sciences***
  (aquatic ecology, limnology, botany, phycology, malacology, river ecology, entomology, vegetation science)
* ***Earth and Environmental Sciences***
  (mineralogy, geology, stratigraphy, paleontology, physical geography, meteorology)
* ***Biological and Clinical Anthropology & Human Biology*** mini e-package
  (physical anthropology, human biology)

or,

* ***all of the above***.

Backset: Our e-backset has been and is still being carefully digitized from print editions and includes all foldouts, such as maps, cross-sections, tables and similar materials to be optimally readable. The volumes/issues currently available in the online archive are listed (and updated daily at 4:30 pm CET) in the Schweizerbart KBART-file:
https://www.schweizerbart.de/resources/downloads/misc/schweizerbart_KBART_current.xlsx

Pricing: Our journals are priced in a four-tier scheme based on the number of sites and the total FTEs at the institution.

Prices of the e-packages are ***less*** *than the sum of the subscription prices of the individual titles* in the packages, and we grant additional discounts, if an institution subscribes for a period of at least three years. Please contact library-service@schweizerbart.de with the number of sites and FTEs to receive a quote for individual titles, our e-packages or if questions about the offer arise.

We archive our content permanently with CLOCKSS
(Controlled Lots of Copies Keep Stuff Safe).

Schweizerbart and Borntraeger Science Publishers

About us

E. Schweizerbart and its affiliate company Gebr. Borntraeger publish and distribute printed and electronic scholarly journals, book series and monographs. We are privately owned and operated by scientists, independent, and we do provide all services related to publishing and marketing scientific content worldwide in print and electronic form.

Schweizerbart Science Publishers were founded by Emanuel Schweizerbart in 1826 as a publishing house with an emphasis on historical works. Shortly after its foundation, the program changed and Schweizerbart concentrated on publishing scholarly journals and books in the sciences, mainly earth- and environmental sciences, aquatic ecology, anthropology, medicine, zoology and plant science. Today, Schweizerbart publishes many scholarly journals, periodicals, series, books and monographs in the Earth and environmental Sciences, aquatic ecology, botany, anthropology and zoology.

Gebr. Borntraeger publishers were founded by J. Nicolovius in Königsberg, Prussia in 1790. They have an active program in the earth- and environmental sciences. Later headquartered in Berlin, Gebr. Borntraeger became an affiliate company of Schweizerbart in 1967, moving its operation to Stuttgart.

Online shop

Printed Books may be conveniently ordered via our web site www.schweizerbart.de, where they can be purchased directly and paid by credit card. We also accept purchase orders by email (orders@schweizerbart.de) or by phone ++49-711-351456-0 during regular business hours (7:30 to 16:00 CET). Any goods received against open account will remain Schweizerbart's property until customers payment was received in full.

Individual journal papers are available as pay-per-view on our website (VISA, MC payment only).

Schweizerbart and Borntraeger e-books titles are available from Proquest (for libraries), EBSCO (for libraries), from

ciando.com (https://www.ciando.com/suche.cfm/schweizerbart) , and

ebooks.com (https://www.ebooks.com/en-de/publisher/schweizerbart-borntraeger/207027675).

Currently 161 Schweizerbart/Borntraeger titles are available as e-books, but their number increases constantly.

We invoice in USD to customers in North America, in EUR to customers elsewhere. We accept payment by bank transfer (SWIFT) and VISA and MC (online shop).
